RECITALS

WHEREAS, Licensor has the right to license the Licensed Patents as specified below, and to grant certain rights and releases thereunder to third parties, including Licensee and Licensee Affiliates;

WHEREAS, Licensee desires to acquire a past release and a non-exclusive future license to the Licensed Patents for the Licensed Products it Makes and/or Sells, limited to the Licensed Field; and

WHEREAS, Licensee understands that it is free to negotiate releases, covenants and licenses, including for portions of the Licensed Patents and Legacy Wi-Fi Patents Held by one or more of the Patent Owners, on a bilateral basis, subject to different terms and conditions than those set forth herein, however, Licensee wishes to obtain such rights in a joint approach from Sisvel, pursuant to the terms of this Agreement.

NOW, THEREFORE, the Parties agree as follows:

- (iii) the merger, consolidation or other business combination involving such Party or Patent Owner in which the voting power of such Party or Patent Owner owned by the shareholders of such Party or Patent Owner immediately prior to such merger or consolidation do not represent more than fifty percent (50%) of the total voting power of the surviving Person outstanding immediately after such merger or consolidation.

For clarity, in case the specified Person is a trust, it is considered held, for the purposes of the previous sentence, by any other Person that established it, independent of who receives the economic interest of the trust.

1.9 “Export Regulations” shall mean any laws, regulations, or governmental orders relating to economic or financial, trade, immigration, aircraft, shipping or other

sanctions, export controls, trade embargoes or restrictive measures that are from time to time imposed and/or administered by the United States, the European Union and its Member States, the United Kingdom, or the United Nations, or any other relevant jurisdiction, or the respective governmental institutions and agencies of the foregoing.

To the extent Licensor has the necessary applicable rights from any such New Patent Owner, Licensor shall timely inform Licensee in writing, and in case Licensee does not object to Licensor in writing within ten (10) days after receipt of Licensor’s notice, such Person shall become a Patent Owner in accordance with this Agreement as of the respective Joinder Date. In such event, **Exhibit B** shall be updated accordingly to include each New Patent Owner and its respective Joinder Date. If applicable, the New Patent Owner’s Wi-Fi 6 Essential Patents and/or Wi-Fi 7 Essential Patents become Licensed Patents under this Agreement as of the Joinder Date or any later point in time during the Term when the relevant Patents become Held by New Patent Owner, and **Exhibit D** shall be updated accordingly.

Such Standard Rate shall apply, instead of the Compliant Rate, with immediate effect from the first day of the royalty reporting period to which the occurrence of such non-compliance relates, until the moment in which Sisvel, in its discretion, confirms in writing to Licensee that Licensee’s material breach has been remedied in full.

Effects of a Third-Party License are set forth in Sections 2.5 and 3.2.

- 1.43 "Wi-Fi 6 Product" means any product of an Approved Product Type that conforms to or practices all or any part of the Wi-Fi 6 Standard and that comprises or utilizes technology claimed by one or more of the Licensed Patents that is a Wi-Fi 6 Essential Patent within the Licensed Field but does not practice all or any part of the Wi-Fi 7 Standard nor any other IEEE 802.11 standard published thereafter.
- 1.44 "Wi-Fi 6 Standard" means the "ax" amendment to the IEEE 802.11 standard that defines modifications to both the IEEE 802.11 physical layer (PHY) and the medium access control (MAC) sublayer for High Efficiency (HE) operation, including technical features originally introduced by standard specifications other than IEEE 802.11ax, but only if such features are explicitly specified by reference to operation of an HE device and the implementation of such feature is required for compliance with such amendment. For clarity, features exclusively required for backward compatibility are not included in the current definition, notwithstanding the fact that such features are (i) referenced by the IEEE 802.11ax standard

specification or (ii) described in the previous sentence.

- 1.45 “Wi-Fi 7 Essential Patent” means any Patent that: (i) under applicable law, includes at least a claim that is either necessarily used in practicing any portion of the Wi-Fi 7 Standard, or the practice of which, as a practical matter, cannot be avoided in remaining compliant with the Wi-Fi 7 Standard, or (ii) has been declared or otherwise held out by the respective Patent Owner (or a previous owner) or its Affiliate, or Sisvel, as applicable, as essential to the Wi-Fi 7 Standard.

For clarity, features exclusively required for backward compatibility are not included in the current definition, notwithstanding the fact that such features are (i) referenced by the IEEE 802.11be standard specification or (ii) described in the previous sentence.

2. Release and License

- 2.1 Past Release. Subject to Section 2.4 and effective upon Licensee’s fulfilment of its payment obligations regarding the Pre-Term Units, Licensor hereby irrevocably releases, acquits, and forever discharges Licensee and Licensee Affiliates from any and all claims of damages or other liabilities for infringement of the Licensed Patents within the Licensed Field limited to the Pre-Term Units to the extent such Pre-Term Units would have been licensed under this Agreement had such infringing acts occurred during the Term, and insofar extends to their successors as well as any downstream customers or end-users for their activities with respect to such released Pre-Term Units (“Past Release”). For clarity, however, with regards to a New Patent Owner, this release does not apply to the period preceding the relevant Joinder Date of such New Patent Owner. Licensor, in providing the release of this Section 2.1, relies on Licensee’s ongoing compliance with its obligations under this Agreement, including the payment of Compensation in Article 3.
- 2.2 License for Present and Future Use. Subject to Section 2.4 and Licensee’s full compliance with the obligations set forth in this Agreement, Licensor hereby grants to Licensee and Licensee Affiliates a non-exclusive, non-transferrable, non-sublicensable royalty bearing license under the Licensed Patents within the

Licensed Field to Make and/or Sell Licensed Products during the Term. For clarity: Post-Term Units are not covered by the license granted herein.

- 2.3 **Standstill.** Subject to Licensee's full compliance with the obligations set forth in this Agreement, Licensor, on behalf of Patent Owners and Patent Owners' Affiliates, grants Licensee and Licensee Affiliates a standstill such that Patent Owners and Patent Owners' Affiliates shall not, during the Term, bring or prosecute any judicial, administrative, or other proceeding for, or based on, infringement of any Legacy Wi-Fi Patent within the Legacy Wi-Fi Field against Licensee or Licensee Affiliates in connection with any Licensed Product Made by or for and/or Sold by Licensee and/or Licensee Affiliates during the Term, provided that Licensee and Licensee Affiliates do not commit a material breach of their obligations under this Agreement and only for the period in which there is no such material breach. For clarity: such standstill does not include any waiver of accruing liability in the Legacy Wi-Fi Field. For further clarity: Post-Term Units are not covered by this standstill.
- 2.4 **KPN Limitation.** Until July 4, 2034 (as applicable), notwithstanding anything to the contrary herein and solely with respect to Licensed Patents that are Wi-Fi 6 Essential Patents Held by Koninklijke KPN N.V., the rights granted by Licensor to Licensee in Sections 2.1 and 2.2 under such Licensed Patents within the Licensed Field solely with respect to the Wi-Fi 6 Standard do not cover or extend to any Licensed Products that are Vehicles.
- 2.5 **Effect of Third-Party License.** A Third-Party License with Licensee or Licensee Affiliates shall be taken into consideration when determining the Compensation (including for the Past Release, in case and to the extent the period before the Effective Date is covered by such Third-Party License), as specified in Section 3.2.
- 2.6 **Limited Scope.** THE LICENSEE AND LICENSEE AFFILIATE'S RIGHTS ARISING FROM THIS AGREEMENT ARE LIMITED TO THE RIGHTS EXPLICITLY STATED HEREIN. NO RIGHTS OTHER THAN THOSE EXPLICITLY STATED IN SECTIONS 2.1, 2.2, AND 2.3 ARE GRANTED, AUTHORIZED, RELEASED, IMMUNIZED, OR MAY ARISE THROUGH IMPLICATION, ESTOPPEL, FORBEARANCE, FORFEITURE, WAIVER, EXHAUSTION, OR ANY OTHER LEGAL OR EQUITABLE THEORY BY VIRTUE OF THIS AGREEMENT, OR AS A CONSEQUENCE OF ANY ACTS OR OMISSIONS IN RELATON HERETO. THIS IS AN ESSENTIAL TERM OF THIS AGREEMENT WITHOUT WHICH THE PARTIES WOULD NOT HAVE ENTERED INTO IT.

3. Payment of Compensation

- 3.1 **Compensation.** Licensee shall make the following non-refundable and non-recoupable payments to Licensor ("Compensation"), as consideration for the rights to be granted to Licensee by Licensor under this Agreement:

- 3.1.1 **Past Release for Pre-Term Units.** For the Past Release, Licensee must provide Licensor a report within thirty (30) calendar days from when this Agreement is fully executed that includes the reporting details set forth in

Section 4.1 for all Pre-Term Units. Licensee must then pay the corresponding amount that is invoiced by Licensor pursuant to the terms below.

- 3.1.2 License for Present and Future Use. For Licensed Products Made by or for and/or Sold by Licensee and/or Licensee Affiliates during the Term, Licensee shall pay to Licensor running royalties for each Licensed Product Made and/or Sold in the preceding calendar quarter, as reported by Licensee to Licensor in accordance with Article 4, at the applicable Royalty Rate. For the avoidance of doubt, Licensor may, upon ten (10) days prior written notice to Licensee before January 1, 2031 and/or January 1, 2036, adjust the Royalty Rates applicable to each specific Licensed Product during the Term provided that if Licensee rejects any such adjustment to the Royalty Rates within the ten (10) day notice period, Licensee may terminate this Agreement in accordance with Section 6.1. Such reasonable adjustment may take into account prevailing market conditions, New Patent Owners, changes in technological environment, and available commercial products; in no event shall the Royalty Rates applicable to each specific Licensed Product increase upon such notice by more than twenty percent (20%) of the Royalty Rates applicable to such specific Licensed Product immediately prior to such notice.

Payment of the Compensation set forth in Section 3.1.1 and/or 3.1.2 above shall be due by the earlier of: (i) fifteen (15) calendar days from receipt of each respective invoice from Licensor, which Licensor may send on or after the date on which Licensor received the respective report in accordance with Article 4, or (ii) within forty-five (45) calendar days from the day the respective report in accordance with Article 4 was due if no report was received by Licensor or if no invoice was received by Licensee. 3.1.2

- 3.2 Third-Party License. Licensee shall not be charged for the relevant Licensed Patents which are encumbered by a Third-Party License with Licensee or Licensee Affiliates ("Pre-Netting"), insofar as such Third-Party License covers the relevant grant of rights set forth herein. Effective as from the termination of the Third-Party License, Pre-Netting no longer applies and Licensee shall be fully liable for, and pay the respective portion of, the royalties for the relevant Licensed Patents in connection with Licensed Products as set forth herein.
- 3.3 Licensee's Supplier; Exhaustion. If Licensee or any Licensee Affiliate purchases or otherwise obtains Licensed Products from a third Person, pursuant to an authorized sale (i.e., transfer of title) by such third Person, under a license, cross-license, sublicense, or any other grant of rights or agreement to Make and/or Sell Licensed Products under the Licensed Patents Held by a Patent Owner within the Licensed Field then, subject to written confirmation by such Patent Owner, Licensee shall have no royalty obligation for such products under the relevant Licensed Patents Held by such Patent Owner (exhaustion).

- 3.4 Licensee's Customer. If Licensee or any Licensee Affiliate Sells Licensed Products to a third Person that is licensed by Licensor or any of the Patent Owners to Make and/or Sell Licensed Products under the relevant Licensed Patents within the Licensed Field and such third Person: (a) is a licensee in good standing of Licensor or the relevant Patent Owners and has fulfilled all of its obligations under such relevant license at the time Licensee or a Licensee Affiliate Sells said Licensed Products to it; and (b) provides Licensor with a written declaration stating that it will be responsible for paying the fees for such Licensed Products prior to such Licensed Products being Sold to it by Licensee or a Licensee Affiliate; and (c) timely pays all the relevant due fees on such Licensed Products to Licensor or all relevant Patent Owners, as the case may be; then, subject to written confirmation by Licensor of the pre-mentioned provisos, Licensee shall have no royalty obligation for such Licensed Products under the relevant Licensed Patents already licensed to and paid for by Licensee's or a Licensee Affiliate's customer. For clarity, in case Licensee's or any of Licensee Affiliates' customer is licensed but has not paid the due fees for Licensed Products Made for and/or Sold to it by Licensee or any of Licensee Affiliates, Licensee's responsibility to pay the respective royalties to Licensor under this Agreement with respect to such Licensed Products still applies.
- 3.5 No Double Charges. Agreements related to one or more of the Licensed Patents for Licensed Products within the Licensed Field shall be taken into account, as applicable, when calculating the Compensation due by Licensee, provided that Licensee reasonably proves the existence of such existing agreements.
- 3.6 Costs, Taxes and Bank Charges. Each Party shall be responsible for its own costs, stamp duties, taxes and other similar levies arising from or in connection with the conclusion of this Agreement. In the event that the government of a country imposes any taxes on payments made by Licensee to Licensor hereunder and requires Licensee to withhold such tax from such payments, Licensee may deduct such tax from such payments. In such an event, Licensee shall promptly provide Licensor with tax receipts issued by the relevant tax authorities so as to enable Licensor to support a claim for credit against taxes which may be payable by Licensor and to enable Licensor to document, if necessary, its compliance with tax obligations in any applicable jurisdiction. The Parties commit to assist and support each other upon reasonable request of the other Party in any call for declarations, documents or details pertaining to this Agreement, in order to satisfy tax authorities and the payment of any due taxes or recovery of reasonably available tax credits.
- 3.7 Bank Details. The Compensation shall be paid by wire transfer to Licensor's bank account as specified in the invoice provided by Licensor. Licensee is fully responsible for payment of the Compensation to Licensor and shall not be absolved from payment for any reason or mistake.
- 3.8 Late Payments. Any payments of Compensation due from Licensee that are not paid on the date such payments are due under this Agreement shall bear interest at the lower of:

- (a) The prime rate (the main refinancing rate) as reported by the European Central Bank on the date such payment is due plus an additional nine percent (9%) calculated on the number of days such payment is delinquent; or
- (b) The maximum rate permitted by law calculated on the number of days such payment is delinquent.

This Section 3.8 shall in no way limit any other remedies available to any other party and shall not be limited in any way by other Sections of this Agreement. Licensor may separately invoice Licensee for any interest owed under this Agreement at any time following such interest accruing, and Licensee shall pay Licensor such invoiced amount within fifteen (15) calendar days. Interest will continue to accrue until paid. Licensor may, in its sole discretion, credit any payments received from Licensee first to any outstanding interest and then to any Compensation owed.

- 3.9 Overpayments. Any overpayment by Licensee, including any interest charged or paid in excess of the maximum rate permitted by applicable law, verified by Licensor shall be deemed made in error or mistake. Any such overpayment or excess interest shall be credited solely against Licensee's future payment obligations under this Agreement. Such credit shall be applied to the next payment(s) due until the credit is fully utilized.
- 3.10 Costs. Licensor shall be entitled to reasonable attorneys' fees, fees, court costs, and costs incurred or associated with the collection of any Compensation, shortfalls, interest, or amounts owed Licensor by Licensee and/or Licensee's Affiliates, including cost incurred by agents and third-party collectors.

4. Reporting

- 4.1 Reporting Details. Within thirty (30) calendar days of execution, Licensee shall provide Licensor with a royalty statement for all Pre-Term Units indicating, separately for each Approved Product Type, the number of units of (i) Wi-Fi 6 Products Made by or for and/or Sold by Licensee and/or Licensee Affiliates between June 1, 2021 and the Effective Date and/or (ii) Wi-Fi 7 Products Made by or for and/or Sold by Licensee and/or Licensee Affiliates between July 1, 2025 and the Effective Date.

Beginning with the calendar quarter that includes the Effective Date (each calendar quarter beginning January 1, April 1, July 1, and October 1), and within the calendar month following the end of each applicable calendar quarter, Licensee shall provide Licensor with a complete and accurate royalty statement. Such royalty statement shall separately set forth, for each Licensed Product, separately for each Approved Product Type, the number of units of Wi-Fi 6 Products and/or Wi-Fi 7 Products Made by or for and/or Sold by Licensee and/or Licensee Affiliates during the previous calendar quarter. Licensor shall provide an

electronic form to Licensee for such royalty statements, which shall include, for each shipment or delivery of such relevant Wi-Fi 6 Products and/or Wi-Fi 7 Products, the following details: the model number, a brief description of the product or product type, the brand or trademark on the product, the full name of the customer, the country of Sale, the full name of the manufacturer (or the direct supplier, as the case may be), and the country of manufacture. Licensee shall submit the full royalty statements in accordance with this Section 4, in a file type specified by Licensor via e-mail to the address WiFiMM.reporting@sisvel.com. Upon reasonable request from Licensor, Licensee shall render to Licensor the above full royalty statements in paper copy, electronic format through an extranet, or other internet website established for such purpose by Licensor.

4.2 Reporting and Documentation for Pre-Paid Royalties. Although no royalties are due by Licensee pursuant to Section 3.3 and 3.4, Licensee shall separately report in the royalty statements as per Section 4, with respect to the preceding calendar quarter and separately for each Approved Product Type, the total number of units (and additional information required in such royalty statements) of Wi-Fi 6 Products and/or Wi-Fi 7 Products that Licensee and/or Licensee Affiliates Made for and/or Sold to and/or purchased from a third Person licensed under the Licensed Patents for such Wi-Fi 6 Products and/or Wi-Fi 7 Products within the Licensed Field and the identity of such third Person.

4.3 Confidential Reports. Licensor shall not disclose any of the information comprised in the royalty statements provided by Licensee or Licensee Affiliates under this Agreement as per Article 7.

4.4 Audit

4.4.1 Necessary Records. Licensee and Licensee Affiliates shall keep and maintain, in paper or electronic form, all necessary books and purchase and sales records to evidence and substantiate the information required under this Agreement (e.g., types, identifiers, amounts, etc.) of Wi-Fi 6 Products and/or Wi-Fi 7 Products Made by or for and/or Sold by Licensee and/or Licensee Affiliates ("Necessary Records"), such as, for example, books and records showing the relationship of Licensee and all Licensee Affiliates and production, bills of materials ("BOMs"), purchases, stocks, deliveries, and technical specifications. Necessary Records pertaining to a particular royalty reporting period, including Necessary Records relating to the Making and/or Selling of any Licensed Products, shall be maintained for five (5) years after the expiration of the Term.

4.4.2 Audit Right. Licensor shall have the right to audit Licensee's and Licensee Affiliates' Necessary Records once per calendar year for verification of the amount of Wi-Fi 6 Products and/or Wi-Fi 7 Products actually Made and/or Sold during the Term in comparison to the amounts reported as Made and/or Sold according to Section 4.1. Licensor shall give Licensee written notice of such audit at least five (5) days prior to the audit.

- 4.4.3 Auditor. Any audit under Section 4.4.2 shall be conducted by a certified public accountant or equivalent accountant or auditor (“Auditor”) selected by Licensor. The Auditor may: (i) provide updates to Licensor regarding the status, timeline, and issues with the audit; (ii) consult with Licensor regarding any interpretation or scope of this Agreement; and (iii) provide Licensor with informal reports and summaries. The Auditor shall provide a final written report to Licensor including the Auditor’s findings, the details indicated in Section 4.1, and any information the Auditor concludes is necessary to support the Auditor’s findings. The Auditor shall enter into a relevant and reasonable confidentiality agreement that Licensee and/or Licensee Affiliate may reasonably request prior to the beginning of any such audit, but such agreement will not restrict the Auditor’s ability to conduct the audit, will not limit the Necessary Records available to or to be provided to the Auditor, will not restrict the Auditor from (i)-(iii) within this subsection, and will not restrict the Auditor from issuing a final written report.
- 4.4.4 Reasonable Cooperation with Auditor. It shall be a material breach of this Agreement for Licensee and/or a Licensee Affiliate to fail to reasonably cooperate with the Auditor and/or to fail to reasonably provide the Auditor with all Necessary Records reasonably requested by the Auditor. All books and records provided by Licensee and/or a Licensee Affiliate to such Auditor, for the purposes of such audit(s), shall be kept by the Auditor according to Auditor’s confidentiality agreement.
- 4.4.5 Audit Costs. The cost of any audit under Section 4.4.2 shall be at the expense of Licensor; provided, however, that Licensee shall bear the entire cost of the audit, without prejudice to any other claim or remedy that Licensor may have under this Agreement or under applicable law, if: (i) the audit reveals a discrepancy (i.e. fails to confirm Licensee’s timely reporting and payment) that is greater than three percent (3%) of the number of Licensed Products reported by Licensee or Licensee Affiliates in any of the quarterly royalty statements during the period to which the audit refers; or (ii) Licensee or any Licensee Affiliate unreasonably refuses, delays, or obstructs the audit or the Auditor’s performance of the audit.
- 4.4.6 Shortfall. Within thirty (30) days after receiving notice from Licensor of any shortfalls uncovered, Licensee shall pay to Licensor (i) any shortfalls plus interest as determined by Section 3.8; (ii) the cost of the audit if Licensor may recover the cost under Section 4.4.5; and (iii) any other costs under Section 3.10.
- 4.5 Licensee Guarantee Regarding Licensee’s Affiliates. Licensee unconditionally and irrevocably guarantees performance under this Agreement by its Affiliates of all actions that may be necessary to enable Licensee to perform its obligations under this Agreement, including the reporting, payment, and verification of royalties

owed for Licensed Products Made by or for and/or Sold by Licensee's Affiliates. If any of Licensee's Affiliates breaches this Agreement or fails to take any such action on a timely basis: (i) it shall be deemed a breach of this Agreement by (and give Licensor a cause of action against) Licensee; and (ii) without limiting the foregoing, Licensee shall, as soon as reasonably practicable, cure such breach or failure.

5. Representations and Warranties

5.1 Licensor's Representation. Licensor represents and warrants that it has the authority, power, and right to enter into this Agreement and to grant Licensee and Licensee Affiliates the rights, privileges, and releases granted herein.

5.2 Licensor's Limitations. Nothing in this Agreement shall be construed as: (a) a warranty or representation by Licensor as to the validity or scope of any of the Licensed Patents; (b) a warranty or representation by Licensor that anything Made and/or Sold under any right granted in this Agreement is free from infringement or will not infringe, directly, contributorily, by inducement or otherwise, under the laws of any country, any patent or other intellectual property right different from the Licensed Patents; or (c) a warranty or representation by Licensor that the Licensed Patents include all patents necessary for compliance with the relevant specification throughout the world.

5.3 Licensee's Representation. Licensee represents and warrants (a) that, as of the Effective Date, (i) it is not the subject of a voluntary or involuntary petition in bankruptcy (or the equivalent thereof) or any other proceeding based on financial distress, (ii) it does not contemplate filing any voluntary petition in bankruptcy or the equivalent thereof, (iii) it does not have reason to believe that an involuntary petition in bankruptcy (or the equivalent thereof) or any other proceeding based on financial distress, will be filed against it in the foreseeable future, and (iv) the royalty statement provided by Licensee under the first sentence of Section 4.1 is and will be accurate, true, and complete in every material respect; and (b) that (i) it has the authority, power, and right to enter into this Agreement, (ii) in executing this Agreement, it does not rely on any promises, inducement or representations made by Licensor or any third Person with respect to this Agreement or any other business dealings with Licensor or any third Person, now or in the future, except those expressly set forth herein, (iii) that it shall use its reasonable best efforts to make sure all reports and information provided by Licensee to Licensor and, if applicable, to an Auditor as per Section 4.4.3 have been and will be accurate, true and complete in every material respect, (iv) Licensee is entering into this Agreement for its own convenience to acquire rights under Licensed Patents from multiple Patent Owners in a single transaction and acknowledges that Licensee is free to negotiate separate licenses for the Licensed Patents directly with one or more of the Patent Owners independently, individually, and directly, on mutually acceptable terms and conditions, which may be different from those set forth in this Agreement, (v) Licensee understands that the terms of this Agreement require the payment of the same specified royalty regardless of whether one, or more Licensed Patents are infringed, and (vi) that the fee provisions and royalties specified herein are fair and reasonable for a license, and (vii) Licensee will comply

with all applicable laws, regulations and governmental orders pertaining to its performance hereunder. Licensee also makes the representations and warranties in this Section (other than clause (b)(vii)) on behalf of Licensee Affiliates, as if they had been the named Person in the foregoing.

5.4 Parties' Mutual Representations. Each Party represents and warrants that this Agreement and the transactions contemplated hereby do not violate or conflict with, or result in a breach under, any other agreement to which it is subject as a party or otherwise. Licensee also makes the representation and warranty in this Section on behalf of Licensee Affiliates, as if they had been the named Person in the foregoing.

5.5 Exhaustive List of Representations. Other than the express warranties set forth in this Article 5, the Parties DISCLAIM ALL OTHER REPRESENTATIONS OR WARRANTIES, EXPRESSED OR IMPLIED. LICENSEE DISCLAIMS RELIANCE ON ANY REPRESENTATIONS AND WARRANTIES OF LICENSOR NOT EXPRESSLY STATED.

6. Term and Termination

6.1 Initial Term and Term. This Agreement is effective as of the Effective Date and shall be in force and effect for a term of five (5) years after the Effective Date ("Initial Term"), unless terminated earlier by Licensor in accordance with Sections 6.3, 6.4, 6.5, or 6.6, terminated earlier by Licensee in accordance with this Section 6.1, or extended as per Section 6.2 (whatever duration of this Agreement applies is referred to as the "Term"). If Licensee rejects an adjustment to the Royalty Rates within the ten (10) day notice period pursuant to Section 3.1.2, Licensee may terminate this Agreement by providing written notice of termination to Licensor during such ten (10) day notice period.

6.2 Extended Term. Upon expiration of the Initial Term, this Agreement shall be automatically renewed for successive five (5) years periods ("Renewal Term") (unless terminated pursuant to Section 6.3, 6.4, 6.5, or 6.6) upon notice of renewal from Licensor to Licensee. Renewal may be conditioned upon compliance with any reasonable amendments or changes to the terms and conditions of this Agreement as set forth in such notice. Such reasonable change or amendment may take into account prevailing market conditions, changes in technological environment, and available commercial products at the time of each five (5) years renewal. In no event shall the Royalty Rates applicable to each specific Licensed Product increase upon each renewal of this Agreement by more than twenty percent (20%) of the Royalty Rates applicable to such specific Licensed Product immediately prior to renewal. If Licensee rejects such reasonable amendment upon ten (10) days notice, this Agreement shall expire at the end of the Initial Term or the then current Renewal Term. The Term shall not comprise more than two (2) Renewal Terms.

6.3 Cure Period. In the event Licensee fails to report royalties, provide due assistance and/or make payment for any due amounts, Licensor shall provide Licensee with

notice of such failure and Licensee shall have thirty (30) days from receipt of such notice from Licensor to remedy such failure before such failure is considered a material breach. In case the afore-mentioned event occurs multiple times during the Term, Licensor may consider this a material breach with no further right for Licensee to remedy.

- 6.4 Termination after Material Breach of Licensee. In the event of a material breach of this Agreement by Licensee, Licensor has the right to terminate this Agreement with immediate effect. In the event of failure of Licensee to comply with Section 8.5, in particular with respect to Export Regulations, Licensor is entitled to terminate this Agreement with immediate effect and without Licensor incurring any liability.
- 6.5 Termination after Change of Control. In the event of a Change of Control of Licensee, Licensor has the right to terminate this Agreement effective as of the date on which the Change of Control becomes effective. Licensee shall provide Licensor with written notice of any such occurrence in advance, indicating the new owner of the Control as well as the date on which such Change of Control becomes effective.
- 6.6 Defensive Termination. In the event Licensee or any Licensee Affiliate initiates, or maintains, or in any other way participates in, or has third Persons initiate, an Assertion against a Patent Owner and/or its Affiliates related to a Licensee Wi-Fi Essential Patent, and Licensee and/or Licensee Affiliate has refused or should be reasonably regarded as having refused to grant the relevant Patent Owner and/or its Affiliates a license on a reciprocal basis under such Licensee Wi-Fi Essential Patents upon which the Assertion is based, then such Patent Owner may provide written notice to Licensor of termination of the rights granted to Licensee under the Licensed Patents it Holds. Upon receipt of notice of such termination, Licensor shall promptly notify Licensee ("Notice Of Termination") and permit Licensee thirty (30) days to withdraw its Assertion in writing. If Licensee does not withdraw with prejudice its Assertion within thirty (30) days from the Notice Of Termination, then Licensor shall terminate, effective on the Notice Of Termination's date, the rights granted under the Licensed Patent(s) such Patent Owner Holds, which Licensor shall communicate to Licensee accordingly. Following any such termination, Licensor shall provide Licensee with an updated illustrative list of Licensed Patents in **Exhibit D**, reflecting the removal of such Patent Owner and its respective listed Licensed Patents. For clarity, in such event, there shall be no adjustment of the Compensation.
- 6.7 Termination Only as Provided. This Agreement may only be terminated as provided in accordance with its terms.
- 6.8 Final Audit, Final Report, and Final Payment. Any termination or expiration of this Agreement shall not prejudice Licensor's right to reports, payments and conduct an audit in accordance with the provisions of Articles 3 and, which shall survive. Furthermore, upon such expiration or termination, Licensee remains obligated to

provide all reports, Compensation, and payments due Licensor for all royalties and other payments accrued prior to the date of termination or expiration, including interests accrued due to late payments.

7. Confidentiality

Each Party may disclose (i) the existence of this Agreement including the identity of the Parties, (ii) the relevant technology licensed under this Agreement, and (iii) that this Agreement was concluded under the Sisvel Wi-Fi Multimode Patent Pool; but shall keep the terms and conditions of this Agreement and any information exchanged by the Parties in its execution confidential and shall not disclose any of the above to any third Person (for clarity, Affiliates of the Parties are not considered third Persons), except: (a) if such disclosure was done by Licensor in an aggregated or anonymized form; (b) if such disclosure was done by Licensor to a third Person under a non-disclosure obligation with Licensor; (c) as provided for in this Agreement or with the prior written consent of the other Party; (d) to any governmental body specifically requiring such disclosure (e.g. customs for verification of license compliance to prevent seizure of goods); (e) for the purposes of disclosure in connection with any possible financial or regulatory filings, reports or disclosures that may be required under applicable laws, regulations, or governmental orders; (f) to a Party's accountants, legal counsel, tax advisors and other financial and legal advisors, subject to obligations of confidentiality and/or privilege at least as stringent as those contained herein; (g) to a competent court, arbitral or mediation panel or competition authority for the purposes of establishing or opposing competition law or (F)RAND related defense(s) in the context of patent infringement, subject to there being safeguards in place to ensure the confidentiality of such information; (h) if disclosure is demanded by a subpoena, or by an order from a court or governmental body, or otherwise during the course of litigation or as may be required by law, regulation, or order, however, if legally possible, subject to protective order or written agreement between counsels that such disclosure shall be limited to "Attorneys' Eyes Only", (or, in the case disclosure is pursuant to a protective order, such protective order shall provide, to the extent practicable, that any disclosure under a protective order would be protected under an "Attorneys' Eyes Only" or higher confidentiality designation); or (i) if the information was or becomes known to the disclosing Party, or becomes publicly available, in each case of (i), without improper means and without an obligation of confidentiality on the part of the disclosing Party or any Person from which such information was or is obtained.

8. Miscellaneous

- 8.1 Communication Details. Any communication, including notices, relating to this Agreement shall be made in the English language, and sent either by e-mail, certified mail with return receipt requested, or by overnight delivery by commercial or other service which can verify delivery to the following addresses, and such communication shall be effective as of the date it is received by the other Party. Each Party shall notify the other Party in writing of any change in the communication information contained in this Section 8.1 within fifteen (15) calendar days of such change.

- 8.2 **Counterparts.** This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but which together shall be deemed to constitute a single document. The exchange of scan copies of signed versions or electronically executed copies of this Agreement shall be sufficient to execute this Agreement and any communication and/or amendment, if any.
- 8.3 **Written Form Requirement.** This Agreement may not be modified, altered, or changed in any manner whatsoever unless in writing and duly executed by authorized representatives of all Parties. The written form requirement also applies to this clause. The second sentence of Section 8.2 shall apply accordingly.
- 8.4 **Law and Jurisdiction.** The Agreement is governed by and construed in accordance with the laws of Germany and irrespective of any conflict of laws principle that might dictate a different governing law. The courts of Mannheim, Germany, shall have exclusive jurisdiction for any and all disputes arising from or in connection with this Agreement.
- 8.5 **Compliance with Laws.** Licensee shall comply with all applicable laws, regulations, and governmental orders as of the effective date stated in the relevant law or regulation, including any applicable Export Regulations and applicable tax withholding laws and regulations and shall not engage in any conduct that would cause Licensor or any Patent Owner to violate such laws, regulations, and orders. This sublicense is granted only to Sell, use and Make Licensed Products that do not violate such laws, regulations, and orders. For the avoidance of doubt and without limitation to the foregoing, Licensee is prohibited to Sell, use, Make, export or re-export, directly or indirectly, any Licensed Products from any place to the countries specified in EU Regulations 833/2014, 765/2006, 269/2014, and 2024/1745 and any amendments thereto for the duration of such regulations. Licensee shall itself be responsible for monitoring such laws, regulations, and orders for any such prohibitions or restrictions and shall follow any instructions Licensor may issue relating thereto. Licensee shall indemnify Licensor and Patent Owners, as applicable, from any expense or damage incurred by Licensor or the applicable Patent Owner, as applicable, resulting from Licensee’s conduct that

violates or is alleged to violate any such law, regulation, or order or resulting in a violation or alleged violation of any such law, regulation, or order by Licensor or any Patent Owner. This Section is an essential element of the Agreement.

- 8.6 No Circumvention of this Agreement; No Patent Laundering. The Parties agree not to act through or in conjunction with third Persons to circumvent or frustrate the purposes of this Agreement, and further agree not to structure future transactions where the effect of such transaction is to limit the licenses, rights, releases, covenants, or immunities provided for under this Agreement. The licenses and other rights conveyed herein are intended to cover only the *bona fide* Licensed Products of Licensee and Licensee Affiliates, and do not cover patent laundering activities such as activities that are undertaken for the purpose of improperly extending the rights to the products or activities of third Persons, which were not intended to be covered by this Agreement (including by means of setting up buy and sell back arrangements, business unit or product or technology divestitures that occur for the primary purpose of extending the rights granted hereunder to third Persons, and other similar sham arrangements).
- 8.7 No Assignment. This Agreement or any right or obligation thereof may not be assigned by Licensee without Licensor's prior written consent.
- 8.8 Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof, and replaces any prior oral or written agreement between the Parties with respect to the same.
- 8.9 General Severability. In the event that any provision of this Agreement is rendered invalid, illegal, or otherwise unenforceable, then such provision shall be amended without materially altering the intention of the Parties and coming as close as possible to the economic reasoning of such provision, and the remainder of this Agreement shall remain in full force and effect, provided the intent of the Parties can be realized.
- 8.10 Trade names, trademarks, service marks. No rights or licenses of any kind or nature whatsoever are created hereunder to use any trade name, trademark or service mark owned by Sisvel, any Patent Owner, Licensee or any of their respective Affiliates, except that Licensee hereby consents to Sisvel listing Licensee's logo on Sisvel's website in accordance with such Licensee's reasonable branding guidelines.
- 8.11 Economic Convenience. The Parties agree that the fees in this Agreement have been agreed as a mutually preferable accounting convenience for the mutual benefit of the Parties to minimize or avoid burdens such as the substantial difficulty and expense of having to track (by territory and over time) the extent to which each individual product is covered by one or more claim(s) of the evolving portfolio of Licensed Patents, and to avoid the substantial burden of identifying and tracking the lifecycle of each such product through multi-tiered downstream distribution channels (e.g., from integrators to distributors to ultimate end users).

Thus, the formulas used to compute the fees hereunder are not per-unit/per-patent/per-country royalties but are intended to produce a comparable and mutually-acceptable total payment as if per-unit/per-patent/per-country royalties had been used.
